

AI Governance and Policy Compliance for Federal Work

8 instructional hours

\$995 per participant

Live virtual, instructor-led

8 hours: Part 1 and Part 2, four hours each. Private onsite delivery by quote. Contact us for upcoming dates.

What you'll work on

Complete a use-case inventory entry and risk and impact assessment for a supplied or approved, non-sensitive AI use case, and map it to the NIST AI Risk Management Framework.

What you will be able to do

1. Apply the NIST AI Risk Management Framework functions (Govern, Map, Measure, Manage) to a real use case.
2. Complete a use-case inventory entry with a risk and impact assessment.
3. Draft an oversight and escalation plan with named owners.

What you leave with: work products & reusable resources

- Use-case inventory entry
- Risk and impact assessment
- Framework crosswalk
- Oversight and escalation plan

Who it is for

Program managers, policy and compliance staff, and contractor teams supporting federal programs.

Before you enroll

Basic AI literacy and your agency or contractor policies. Not legal advice; current policy sources are reviewed in class.

How the 8 hours run

Part 1 · Frame governance for a federal use case · 4 hours

Assess and eXplore (3½ hours), then begin the applied exercise (½ hour). Work products: A starter use-case inventory entry and notes on applicable policy, risk, and human oversight.

Part 2 · Build governance work products · 4 hours

Continue Implement (3½ hours), then Sustain (½ hour). Work products: A use-case inventory entry, risk and impact assessment, framework crosswalk, oversight and escalation plan, and policy-review calendar.

Tuition: \$995 per participant for both parts, or \$675 per part purchased separately. Part 2 builds on Part 1; contact Axis about equivalent preparation before enrolling in Part 2 alone. Full-course completion requires both parts and the course work products.

A Assess 1 hr	Use a supplied scenario or an approved, non-sensitive program use case and the applicable policies.
X eXplore 2 hr 30 min	The NIST AI RMF, current federal AI policy sources, use-case inventories, impact and risk assessment, and human oversight.
I Implement 4 hr	Complete the inventory entry, risk and impact assessment, and framework crosswalk for your use case.
S Sustain 30 min	Draft the oversight and escalation plan and a policy-review calendar.

Complete this course

Attend the live instructional hours and submit the course work products listed above.

This individual course has no formal assessment or capstone requirement. The hands-on activities help you practice and apply what you learn.

Digital badges and certificates of completion are issued through Certifier with a verification link.

Formal capstone assessment applies only when completing a full AI Mastery or role certificate pathway through AXL-30.

Individual course credentials recognize completion. Full AI Mastery and role certificate credentials also require passing the AXL-30 capstone. They are not academic credit, a professional license, or an accredited, government-endorsed or continuing-education-approved credential. Tuition is standard commercial pricing, not a GSA Schedule rate.
